

SA SODA

A female and youth owned company - delivering supply
chain solutions for mining and industrial players

Innovation & Excellence Are Who We Are!

SASODA is a company 100% owned and managed by black entrepreneurs, one of the disruptors Heavy Trona (Sodium Carbonate) and Sodium Bicarbonate in mining, energy and water sectors in South Africa.

VISION

SASODA will become the largest natural heavy trona and sodium bicarbonate producer in AFRICA.

MISSION

Our mission is to challenge the status quo, to innovate and to excel in everything we do.

1

Soda Ash Light

2

Soda Ash Dense

3

Carbon Black & Bitumen

Strategically, we aim to maintain and extend our leadership position in the global Soda Ash Industry.

Suppliers
of **Heavy Trona and Sodium Bicarbonate.**

used in the production of many products from glass to baking powder.

Agile Supplier of High Quality Products

Bitumen is a variety of Petroleum. A sticky, black and highly viscous liquid or semi-solid to solid form of Petroleum.

Bitumen, dense, highly viscous, petroleum-based hydrocarbon that is found in deposits such as oil sands and pitch lakes

Carbon Black

Benefits

The high tinting strength and stability of carbon black has also provided use in coloring of resins and films.

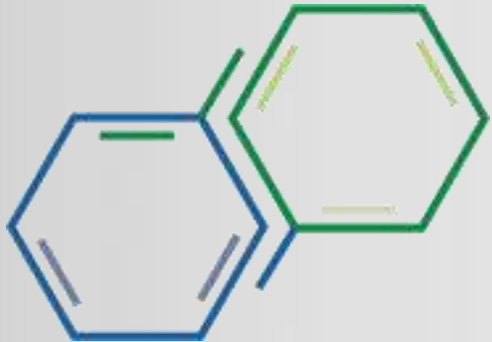

Carbon black is a good conductor of electricity, and is used as a filler mixed in plastics, elastomer, films, adhesives, and paints.

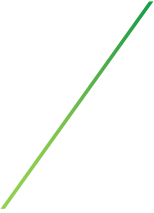

Reliable

Innovative

Achieve 
**Your Goals,
Partner with
SASODA**

SASODA will help you achieve production volumes, product quality and supply chain reliability, technology and process innovation and adhere to safety and environmental standards.

A large mining truck is the central focus, set against a dark, cloudy sky. The truck is dark and appears to be carrying a load. The overall scene is dimly lit, with a green line extending from the top right towards the truck. The text 'Get in Contact' is overlaid on the image, with 'Get in' in white and 'Contact' in green. There are also green corner brackets in the top left and bottom right.
